EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Rodney LeRoy on 11/10/2005.

In the claims:

Claim 1, line 5, after "top housing", insert " and having a seamless appearance from a top of said extending button".

Claim 12, line 6, after "top housing", insert " and each having a seamless appearance from a top of said extending buttons".

Claim 22, line 5, after "top metal housing", insert " and having a seamless appearance from a top of said extending button".

Claim 23, line 5, after "top housing", insert " and having a seamless appearance from a top of said extending button".

Claim 27, line 5, after "top housing", insert " and having a seamless appearance from a top of said extending button".

Allowable Subject Matter

2. Claims 1-33 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to an input device with a top housing having an integrally formed, free extending top button. The top housing is mounted so that the extending button is supported in a cantilevered fashion. The button is sufficiently flexible to allow it to be depressed for button activation.

Independent claims 1, 23 and 27 identify the uniquely distinct features "a free extending button integrally formed with said top housing and having a seamless appearance from a top of said extending button; said extending button being depressible separately with respect to a remainder of said top housing; said top housing providing a cantilevered mounting of said extending button to said body of said device." Independent claim 22 recites the same uniquely distinct features and further limits the top housing as a metal housing.

Independent claim 12 identifies the uniquely distinct features "first and second free extending metal buttons integrally formed with said metal top housing and each having a seamless appearance from a top of said extending buttons; said extending buttons being depressible separately with respect to a remainder of said top metal housing; said top metal housing providing a cantilevered mounting of said extending buttons to said body of said device."

Independent claim 33 identifies the uniquely distinct features "a free extending button integrally formed with said top housing and having a seamless integration with said top housing; said extending button being depressible separately with respect to a remainder of said top housing; said top housing providing a cantilevered mounting of said extending button to said body of said device."

None of the prior arts of record teaches at least the above features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tom V. Sheng whose telephone number is (571) 272-7684. The examiner can normally be reached on 9:00am - 6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amr Awad can be reached on (571) 272-7764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
